BREAK OPEN THE CLASSROOM THIS SUMMER

NUSCOLLEGE
NATIONAL UNIVERSITY OF SINGAPORE

As the flagship honours college of the National University of Singapore (NUS), we do not simply teach; we challenge. NUS College Summer School offers a high-fidelity simulation of our interdisciplinary curriculum, designed to push the boundaries of conventional learning. You will move beyond rote knowledge to investigate complex, real-world challenges, acquiring the critical thinking frameworks and cross-disciplinary skills that define the world's top undergraduates.

Experience the freedom and connection of true campus living. You will stay in our residential suites immersed in a diverse community of inquisitive peers. Whether you are debating ideas over dinner in the dining hall or exploring the campus with new friends, you'll discover that at NUS College, the community is the curriculum.

Why limit learning to four walls? Our experiential learning approach pushes you into the field to see how concepts live and breathe. You will not just study sustainability or heritage; you will experience them. Whether it is a night tour of Singaporean landmarks or a deep dive into urban systems, you will learn to connect the dots between what you read in class and what you see in the world.

AT NUSC SUMMER SCHOOL 2026 WHERE **INSPIRATION** DRIVES **IMPACT** YOU WILL GET

- **Interdisciplinary Seminars:** Engage with dedicated faculty on themes like AI, sustainability, and global issues.
- **Hands-On Projects:** Tackle real-world problems and connect ideas across diverse fields.
- **Experiential Field Trips:** Learn in Singapore’s “living laboratory”.
- **Skill Workshops:** Build critical thinking, communication and leadership skills.
- **Collaborative Challenges:** Work with motivated peers in team-based activities.
- **Personal Branding Readiness:** Prepare for your career after university.

A rigorous, future-ready honours experience where **Inspiration Drives Impact**
- equipping you with skills and perspectives that last well beyond the programme.

WHY CHOOSE NUSC SUMMER SCHOOL 2026

Step Into a Transformative Education Journey

Spend a week with inspiring faculty mentors and student facilitators at NUS College, where Real-world Challenges meet Interdisciplinary Learning

Perfect for Curious Minds eager to discover diverse fields and Global Perspectives!

Beyond the Classroom A Summer Like No Other

Parents, Join the Experience!

Wondering what an NUS College education is like?

Complimentary parent sessions* with exclusive insights into our unique interdisciplinary approach and personal growth of summer school participants

*Refer to programme schedule (parents) for selected dates, timings and details.

Student Testimonials

"I discovered how important community, reflection, and real-world application are to the NUSC experience. It inspired me to look forward to a university life that is not just about grades, but about growth."

- **Grandy Fei Zixiang***, 2025 student from China

Our Academic TEAM LEADS

DR JONATHAN LEONG

Jonathan is a senior lecturer at NUS College and a tribologist who studies friction and lubrication. Trained in the natural sciences, he works across disciplines, teaching courses that connect scientific advances with social, economic, and political forces, and that examine how human biases shape interpretation and data. Beyond the classroom, he enjoys mentoring students and exploring teaching methods that help learners grasp concepts through lived experience

DR LIM CHEE HAN

Chee Han is a medical anthropologist specialising in healing systems, religion, and cultural constructs of the body. His wide-ranging interests span qigong medical ethics, cognitive linguistics, religion, and experiential learning. A senior lecturer at NUS College, he teaches courses on the social sciences, well-being, and martial cultures, and supervises Impact Experience projects. He also enjoys practising and teaching meditation and martial arts, and is keen to integrate embodied learning and AI into higher education.
